

Fire Drills, Earthquake Drills, and Lockdown Drills at BPC

- The health and safety of our community is our number one priority.
- BPC conducts monthly fire/earthquake drills and periodic lockdown drills throughout the school year.
- All faculty and staff regularly participate in on-campus safety training led by our Safety Coordinator and annually get First Aid/CPR certified with an outside trainer.
- Additionally, we have a number of Wilderness First Responders on staff, and a BPC parent Medical Advisory Committee staffed by MDs and nurses.
